

# VASCULITIS ACTIVITY SCORE 2002

Tick box **only** if abnormality represents active disease (use the Vasculitis Damage Index, VDI to score items of damage). If there are no abnormalities in a system, please tick the "None" box

If **all** the abnormalities recorded represent smouldering/low grade/ grumbling disease, and there are no new/worse features, please remember to tick the box at the bottom right corner

	None	Active disease		None	Active disease
<b>1. General</b>	<input type="radio"/>		<b>6. Cardiovascular</b>	<input type="radio"/>	
Myalgia		<input type="radio"/>	Loss of pulses		<input type="radio"/>
Arthralgia or arthritis		<input type="radio"/>	Valvular heart disease		<input type="radio"/>
Fever $\geq 38.0^{\circ}\text{C}$		<input type="radio"/>	Pericarditis		<input type="radio"/>
Weight Loss $\geq 2$ kg		<input type="radio"/>	Ischaemic cardiac pain		<input type="radio"/>
<b>2. Cutaneous</b>	<input type="radio"/>		Cardiomyopathy		<input type="radio"/>
Infarct		<input type="radio"/>	Congestive cardiac failure		<input type="radio"/>
Purpura		<input type="radio"/>	<b>7. Abdominal</b>	<input type="radio"/>	
Ulcer		<input type="radio"/>	Peritonitis		<input type="radio"/>
Gangrene		<input type="radio"/>	Bloody diarrhoea		<input type="radio"/>
Other skin vasculitis		<input type="radio"/>	Ischemic abdominal pain		<input type="radio"/>
<b>3. Mucous membranes/eyes</b>	<input type="radio"/>		<b>8. Renal</b>	<input type="radio"/>	
Mouth ulcers/granulomata		<input type="radio"/>	Hypertension		<input type="radio"/>
Genital ulcers		<input type="radio"/>	Proteinuria $>1+$		<input type="radio"/>
Adnexal inflammation		<input type="radio"/>	Haematuria $\geq 10$ rbc/hpf		<input type="radio"/>
Significant proptosis		<input type="radio"/>	Creatinine 125-249 $\mu\text{mol/l}$		<input type="radio"/>
Red eye (Epi)scleritis		<input type="radio"/>	Creatinine 250-499 $\mu\text{mol/l}$		<input type="radio"/>
Red eye conjunctivitis/blepharitis/keratitis		<input type="radio"/>	Creatinine $\geq 500$ $\mu\text{mol/l}$		<input type="radio"/>
Blurred vision		<input type="radio"/>	Rise in creatinine $> 30\%$ or		
Sudden visual loss		<input type="radio"/>	Creatinine clearance fall $> 25\%$		<input type="radio"/>
Uveitis		<input type="radio"/>	<b>9. Nervous system</b>	<input type="radio"/>	
Retinal vasculitis/retinal vessel thrombosis/retinal exudates/retinal haemorrhages		<input type="radio"/>	Headache		<input type="radio"/>
<b>4. ENT</b>	<input type="radio"/>		Meningitis		<input type="radio"/>
Bloody nasal discharge/nasal crusts/ulcers and/or granulomata		<input type="radio"/>	Organic confusion		<input type="radio"/>
Paranasal sinus involvement		<input type="radio"/>	Seizures (not hypertensive)		<input type="radio"/>
Subglottic stenosis		<input type="radio"/>	Stroke		<input type="radio"/>
Conductive hearing loss		<input type="radio"/>	Cord lesion		<input type="radio"/>
Sensorineural hearing loss		<input type="radio"/>	Cranial nerve palsy		<input type="radio"/>
<b>5. Chest</b>	<input type="radio"/>		Sensory peripheral neuropathy		<input type="radio"/>
Wheeze		<input type="radio"/>	Motor mononeuritis multiplex		<input type="radio"/>
Nodules or cavities		<input type="radio"/>	<b>10. OTHER</b>	<input type="radio"/>	
Pleural effusion/pleurisy		<input type="radio"/>			<input type="radio"/>
Infiltrate		<input type="radio"/>			<input type="radio"/>
Endobronchial involvement		<input type="radio"/>			<input type="radio"/>
Massive haemoptysis/Alveolar haemorrhage		<input type="radio"/>	<b>PERSISTENT DISEASE ONLY:</b>		
Respiratory failure		<input type="radio"/>	Tick here if <b>all</b> the above abnormalities are due to low grade grumbling disease and not due to new/ worse disease		<input type="checkbox"/>
